**TASTELESS & 10 X MORE POTENT
PER MG THAN COMPETITORS PRODUCTS.**

One serving of DROPS can Change your Drink and World—this powerful Canna-active™ Beverage Enhancer is tasteless, flavorless and instantaneously adds the wellness benefits of high output USA-grown organic non-psychoactive CBD to any beverage or liquid you love. It delivers advanced benefits that support the Endocannabinoid System with superior bioavailability. Nano-Amplified® for ultimate potency, a little goes a long way. What makes this hemp-based concentrate so powerful is

our industry-changing NANO-AMPLIFIED® technology. It's a revolutionary process that allows us to break apart larger particles into hundreds of thousands of extremely small individual particles and encase them into highly active nano-size water clusters—the size that can penetrate cell membranes immediately.

So, DROP it like it's hot and drop it in a cold or hot beverage. It's that easy, and it's good for your health.
